PROFESSIONAL EXPERIENCE

.NET Developer | Ambipar ESG

March 2026 – Present | *Brazil*

- Develop and maintain enterprise .NET applications, primarily focused on backend development using C#, ASP.NET, and SQL Server.
- Implement features, investigate and resolve production issues, support database integrations, and contribute to performance improvements.
- Contribute to the gradual modernization of existing systems, with a focus on stability, maintainability, and the continuous evolution of business-critical internal applications.

.NET Developer | Tecla T

August 2025 – March 2026 | *Belo Horizonte, MG, Brazil*

- Contributed to the development and maintenance of enterprise .NET applications in a consulting environment for a long-term client.
- Worked primarily with C#, ASP.NET, and SQL Server on feature development, legacy system maintenance, production support, and day-to-day technical demands.
- Supported application reliability and continuous system evolution while adapting solutions to business requirements and an established enterprise technology environment.

Full Stack Developer / IT Support | Planner Identificação Inteligente

November 2021 – August 2025 | *Minas Gerais, Brazil*

- Transitioned from IT Support into software development while continuing to provide infrastructure and technical support when needed.
- Maintained, modernized, and evolved enterprise applications built with C#, .NET, ASP.NET MVC, ASP.NET WebForms, and Windows Forms.
- Delivered application features, performance improvements, interface enhancements, and automation for internal business processes.
- Worked with SQL Server, Entity Framework, and ADO.NET on data access and application maintenance, supporting system stability and scalability.
- Provided technical support for users, workstations, networks, servers, and internal infrastructure.

EDUCATION

Postgraduate Degree in Software Engineering | PUC Minas | November 2024 – May 2026
Associate Degree in Systems Analysis and Development | UniCesumar | October 2020 – June 2023
